Trouble - Tinge Makes Fast Time WASHINGTON, March 20.-Twenty-five hundred persons saw favorites win four out of six races at the St. Asaph track this afternoon, the feature of the day being the romping victory of M. A. Coleman's speedy filly Tarentum, winner of the dash for two-year-olds on the opening day. Tarentum gave her opponents 5 pounds and a clever beating, running the half mile in 53% seconds. There were a number of new faces from New York in the betting ring, Henry Stedeke:, J. A. Bennett, Robert Irving, and other well-known Gotham sportsmen putling in an appearance.

Dr. Street's crazy filly Tortosa delayed the start for the opening event, which was the scramble for two-year-olds won by Tarentum, and it looked at one time as though she would not break with her field at all. Tarentum was a warm favorite at 1 to 2, and Reiff rode permitting Doggett on Alfred Lakeland's Lady Lawrence to make the running until well into the homestretch. When the young Kansan called on the favorite she romned ast Lady Lawrence and won pulling up. W. C. Daly's Peggy O., a daughter of St. Blaise, was

butch Lady was the favorite for the second race, at six furlongs. It was a race for maidens exclusively, and she should have won with great ase. She was ridden by Reiff, and, although well placed at the fall of the flag, was interfered with opposite the stand and again at the beginning of the upper turn by Hellas and Emancipation. Reiff had to pull her up twice, and by the time he got fair sailing W. C. Daly's Capt. Jack had opened up a big gap. Dutch Lady closed resolutely on the leader, and would have wo had the race been a hundred yards further. Keefe rode Capt. Jack out all the way home. and was first by a scant half length. Jimmy Mc-Laughlin's Sir James, by Exile, was a fair third, This is the colt out of Walcott's dam that the old-time jockey hoped would make a good race He seems to have grown into the air too much to be of any great merit, and his performnce yesterday was far from good. John Lamly had the mount and was hard at work on him had the mount and was hard at work on him from start to fluish. Lamly is under contract to ride for the Ruppert Stable and weighs only 90 pounds. He has lost his rosy cheeks and sectus to be in anything but good health. He says his appetite is first class, but from 105 pounds down to 90 pounds in a year and a haif to a big change.

says his appetite is first class, but from 105 pounds down to 90 pounds in a year and a half is a big change.

Pekin was the choice for the dash at a mile, and the brown horse won so easily on the opening day that he was plunged on by the best judges of form at the track, going to the post at 1 to 10. Darkness was second choice at 4 to 1. Pulitzer was warmed up in blankers and a few bet on him at 7 to 1. La Sotta made the pace until the stretch was reached, giving way to Pekin, who shock his competitors off and won very eleverly by a couple of lengths. It was a battle royal for accound money hetween Lady Adams and La Sotta, the former beating the son of Emperor by a neck in a hard drive. Pulitzer and Darkness performed poorly.

Wait Jim, as cranky as of yore, was the disturbing element for the dash at five furlongs, for which he was an odds on favorite. He protected and wheeled repeatedly, spoiling good starts, and after he became well warmed up and was ready to break the Westernhorse Honneville, a brother to Sunday, the gelding the Westerners brought on East to win the first Toboggan Slide Handicap at Morris Park, became crazy and wanted to run the reverse direction of the track, Finally all broke off, and Bonneville and Wah Jim started, being followed by Flying Scud. Wah Jim ran the first three furlongs in 36½ seconds, and Bonneville gany with the stretch home. Wah Jim winning under a wrap by two lengths. Canvass closed up in the stretch home, Wah Jim winning under a wrap by two lengths. Canvass closed up in the stretch home, Wah Jim won the head of the stretch home, Wah Jim scud for second money cleverly.

closed up in the stretch and beat Flying Scud for second money cleverly.

Hoey, on the strength of his runaway victory in the mud on Tuesday, was considered the surest of sure things for the seven-furiong dash for the the majority of the talent. He had 123 pounds up and the distance was a trille more than he cares for in good company. But his class was considered high enough to carry him through victoriously. Flenty was second choice at 8 to 5, with Ascotnext, at 6 to 1, Payor Play at 15 to 1 went out after Hoey after the start and passed him on the backstretch. In the upper turn Bound Brook, Gold Dollar, and Ascot gave chase, and passing the favorite in the homestretch had a red-hot race for sacond money, none of them being able to catch Pay or Play, whose improvement over the form he displayed on Tuesday was remarkable. Ascot, Gold Dollar, and Bound Brook were second, third, and fourth in the order named, necks apart. Buggett pulled Hoey up when he saw that he could not get first or second place. Plenty ran a very had race for a second choice. The time of the seven furious, 1:328, Indicates that the track is rapidly drying out. In fact, there are only a few bad apots in the entire circuit now, one of these being opposite the paddock. The soir is sponay, like the old Linden course, and it will have to be ripped out and new earth put in its place before it will be fast. The management, however, think that ditching will remove the evil.

That good three-year-old Tingeshowed a taste of his quality by winning the last tace of the day, at six furlougs, in hand in the fast time of the grand mare Faithless. It was M. A. Coleman's third victory since the opening of the meeting, and but for the mishap to Dutch Lady, it would have been his fourth. Summary:

### RALPH WILKES DEAD.

Sudden Death of the Speedy Son of Red Wilkes and Mary Mays,

CLINTON, Mass., March 20.-Ralph Wilkes with a record of 2:0634, the fastest horse in New England, died at the Maplehurst Farm, in South Lancaster, this morning, after an illness of less than twelve hours. The cause of the stallion's death was pronounced by the veterinary surgeons to have been inflammation of the bowels.

The sudden death of Ralph Wilkes was the uppermost topic of horse talk among the breeders and turfmen at Kellogg's sale in Mad-

breeders and turfmen at Kellogg's sale in Madison Square Garden yesterday. Charles Hackman, the oldest breeder of trotting horses in the
United States, voiced the sentiment of everybody
by saying that the death of Mr. Thayer's grand
young stallion is a national calamity to the
horse breeding industry.

A great majority of the trotting-horse fraternity looked upon the six-year-old son of Red
Wilkes and Mary Mays as the coming champlen among trotting stallions. Next to Directum, 2:05bg, Ralph Wilkes held the fastest record ever made by an entire horse, and it is well
known that this mark was made under circumstances not the most favorable. The stallion
was a horse with a will of his own, like nearly
all the extremely fast trotters, and he had
been hadly broken when a colt; indeed,
he was never thoroughly broken until he went
into Trainer James Golden's hands last year,
and even then the noted reinsman could not get
him to submit to the use of an overdraw check,
such as all the fast trotters require to bring out
their beat rate of speed, Golden said last senson,
when he had Ralph Wilkes at Fleetwood, that
the lorse could beat the stallion record if he
would only submit to an overdraw check.

During the past winter the Hoston reinsman
succeeded in using the appliance on Ralph
Wilkes, and great things were predicted for him
in 1805.

Raph Wilkes was bred by Dr. W. F. Gaibreath of Lexington, Ky, and was foaled in

in 1895.

Raph Wilkes was bred by Dr. W. F. Galbreath of Lexington, Ky., and was foaled in 1889. As a two-year-old he started but once in company, and was then beaten by Monbars, the crack colt of the East, in 1891. Late in the season C. W. Williams, the breeder and trainer of Axtell and Allerion, took the headstrong colt in charge, and at Independence, In., Oct. 30, in charge, and at Independence, In., Oct. 30, gave him a record of 2:18 in a context against time. Ralph Wilkes was sold adon after this performance to Mr. Thayer for \$30,000, George W. Lewvitt negotiating the deal.

inne. Raipn whites was sold soon after this performance to Mr. Thayer for \$30,000. George W. Leavitt negotiating the deal.

As a three-year-old he was trained and trotted a public trial over the Mystic Park track in Boston in 2:133, but he did not start in a race. In 1803 he remained in the stud during the entire season, Golden taking him to train early the following year. The young horse made his first start in the Grand Circuit at Rochester, Aug. 17, defeating Judge Austin and a big field in straight heats and lowering his record to 2:12%. Later he won the Charter Onk Stakes at Hartford, cutting his mark down to 2:1034 and beating such good ones as Mahogany and Aunt Deillah. Altogether he trotted five races without meeting defeat, and at Lexington in October he went to the post a hot favorite for the Transylvania Stakes. There was considerable fockeying. The headstrong stallion got his temper aroused, and refused to strike a trot, the result being that Azote shut him out in the opening heat of the race, causing the biggest dump of the vearto the betting fraternity. At Nashville the next work falph Wirkes started against time, and lowered his record to 2:003. This is the fastest mark to the credit of the Wilkes family, as well as the fastest for five-year-old trotters.

He was a horse of magnificent physique, strongly muscled, and full of bloodlike quality. His sire, Red Wilkes, is the sire of 101 trotters and pacers with records of 2:30 or better. His dam. Mary Mays, was by Mambrino Patchen, the brother to Lady Thorn.

MEETING OF THE JOCKET CLUB. The Members Devote Attention to Pro-

Contrary to expectation, no action was taken in the case of Jockey Jimmie Lamly at the meeting of the Jockey Club held in the Cumberland yesterday afternoon. August Belmont, President of the club; Col. W. P. Thompson, Dr. Gideon Lee Knapp, F. K. Sturgis, and J. O. Donner were present at the meeting, and they confined their attention to the various amendments proposed to the club rules. They went

monts proposed to the club rules. They went into session at 4 o'clock in the afternoon, and labored assiduously until 8 o'clock in the evening, making changes in and amendments to different rules.

One of the most important amendments adopted was that to rule 78, iferetofore when stake races have been of a specific guaranteed value, there has always been some doubt in the minds of the managers of the various associations as to who should take any surplus there might be over the guaranteed value, The Jockey Club clearly defined its attitude on the question last year, when at Samioga it ruled that the surplus should got the winning horse, Yestoriay it set at rest all doubt in the matter and dissinated all chance of difference by amending rule 76. The rule as amended provides that shy surplus in a guaranteed stake must be given as a part of the premium and constitute a part of the stake.

But 38, which deals with registration, was also amended. In its new form it permits registration on payment of a nine of \$10 in cases where failure to register was unintentional. The end of the first paragraph of rule 113 will now read:

The other horses shall take their places accordingly. The amendment proposed to rule 52, and which provided that no part owaer in a horse or stable should assign his interest in such horse or stable without the written consent of his partner first having been obtained, was withdrawn. It was also deceded to change rule 29. Under the rule as amended the fee paid by apprentices will be considered in part payment of their fee for a jockey's license should they subsequently apply for one.

BILLY A., 2:13 1-4, NOW BELONGS TO THE WELL-KNOWN TERFMAN.

Me Will Be Takenho England to Be Driven on the Road-His Record-Low Prices Rule at the Kellogg Sale in the Madison Square Garden, the Average for All

Being Less Than \$200 Per Hend. Richard Croker was in the large gathering of yesterday, where Kellogg's sale of trotting stock is in progress. The noted turfman seemed to suddenly renew his former interest in the harconsistent little trotter Billy A., 2:1315, was prought into the ring, and shortly after the hammer fell to Frank Fox's bid of \$1,275 it became known that Billy A. now belonged to Mr. Croker. He will be taken to England and driven on the road next summer while his owner abroad following the fortunes of Dobbins and the other thoroughbreds which Hardy Campbell is now training at Newmarket.

Mr. Croker's new road horse is one of the next est, fastest, best little trotters ever seen on the tracks about New York. He was out on the campaign last season in the stable of John Shillinglaw, trotting races in the Grand Circuit against such cracks as Ozote, 2:0814; Oro Wilkes :11; Dandy Jim, 2:1014; Cobwebs, 2:12, and J. M. D., 2:1314, and winning a part of the money at nearly every start. In a great race at Pougnkeepsie in August he won two heats and a rec-ord of 2:13%, proving himself a thoroughgoing good one. Billy A, hails from Tennessee, and he is bred for a pacer, both his sire and his dam be-ing of the Tom Hall stock, from which Hall Pointer is descended. Pointer is descended.

Prices ruled very low at the sale yesterday, Billy A, being the only animal among seventy-seven to reach the \$1,000 mark, while the average for all was less than \$200 per head.

The stock belonging to Nathan Strans, I. V. Baker, Jr., and the estate of Edwin Bates, to gether with a few smaller consignments, filled out the day without exciting spirited bidding. To-day will end the sale. Following is the summary of yesterday's transactions. PROPERTY OF B. FRANK HALL, ST. MARY'S, PA

PRESIDENT FREEDMAN RETURNS.

He Is Very Eathesiastic Over the Work of President Andrew Freedman of the New York Baseball Club arrived in this city from Jackson-

of his trip.

"I want to say," he remarked to a Sun reporter, "that Jacksonville is one of the best places in the South for a ball team to train in. During my stay there we had but three rainy days, while at Savannah and Charleston the Brooklyns experienced more than a week of un-favorable weather. The grounds at Jacksonville were new, as there was really no ball park in which the New Yorks could play. They were, perhaps, not all that could be desired, but they suited the purpose of the players in getting them down to weight. The infield was made up of sand and clay rolled hard, and while it wasn't. of course, as easy to play on as a grass diamond, still the players were enabled to sprint around

the bases in lively style. "There's one player that will surprise local cranks, and that is Mike Tiernan. He is in superb condition, and is running the bases like a deer. He is also idtting the ball hard, and Davis is very much pleased with his work. Van Haltren is also in fine trim, and playing fast ball. These two men are sprinting around the diamond in wonderful style. Of course, every-body wants to know about Stafford, the new second baseman. Well, to be honest, he is the pet of the team. All the players are interested in his success, and, according to Manager Davis, he is

ers are interested in his success, and, according to Manager Davis, he is playing fully up to the mark. Davis and Doyle are enthusiastic over Stafford, and Harry Wright, who watched his work the other day, said he was a very 'likely young man.' Stafford is most ambitious to succeed, is conscientious, and tries for everything. If the public will give him a fair trial, Davis feels confident that he will fill the position as well as anybody can.

"Davis and Doyle have rounded to very quickly. Both are hitting the hall hard, and are the life of the team. Burke is covering left field in his old-time form, and is batting heavily. Both Fuller and Murphy are playing short stop well, but Fuller is a fixture on the regular team. Rusic is really in shape. He weighs less than he did at any time last season, and his arm is all right. Merkin is in condition to begin regular work at once, but he has not let himself out at all vet. German seems to be in much better health than a year ago and has plenty of speed. Clarke is all right, and is booked for some clever work. Knauss, the new left-hander, is doing well, although he has not taken any chances with his arm yet. He is a most gentlemnly player and we hope to keep him with us. Young Bannon is a fast youngster and with development will surprise people. Both of the catchers, Farrell and Wilson, are fit as fiddies, but Farrell has done little or no throwing yet. In fact, all of the players have taken good care not to overwork their arms, and will come North ready for business.

"Manuscer Davis takes the men out to the grounds every morning at 10 o'clock and they emain there until moon. Then at 2 o'clock they go out again, returning to the hotel shortly before 5 o'clock. There have been days when the thermometer was 86° in the elade, which of course caused a general reduction of weight among the big members of the team. The attendance at the games has been good for Jacksonville, but the club is not so anxious about the financial results of the trip as it is to have the New Yorks

"Don't let the impression get abroad that the players are over-confident, for they are not. They realize what a hard fight is in store for them, and mean to play the best ball they know how. But they do not believe that the pennant is clinched and that they will beat all other teams out in a walk. They will beat all other teams out in a walk. They will come here in shape to play ball to the best of their ability, and the public can judgs whether they are the best lot of players in the League or not. I have noticed that somebody has said that I have been interfering with Davis in the management of the team. Such a report is too ridiculous to deny, and I don't care to waste time discussing it. As to the alleged interview in which I was made to say that Chicago and other Western clubs will have to leave the Hague, I will say that, outside of discussing the affairs of the New York Club, I did not submit to a single interviewer in Jacksonville.

"The team will leave their training quariers to-morrow, and the club has engaged a special car in which they will travel on their way North. On Saturday they play at Columbia. S. C.; on Monday at Danville, on Tuesday at Charlotteswille, Wednesday and Thursday at Richmond with the University of Virginia, Friday at Portsmouth, and Saturday, March 30, at Norfolk. That night the boys will leave Norfolk by steamer for this city, arriving here Monday, April 1. Yes, I know it's All Fool's Day, but the team may fool some of those prophets who have put New York down for fifth or sixth place." "Don't let the impression get abroad that the

ANOTHER BROOKLYN VICTORY Pittsburghs Beaten Aguln in a One-sided Practice Game.

SAVANNAH, Ga., March 20.-After the fifth inning in the game here this afternoon the Brooklyns treated the Pittsburghs about as they pleased. They ran the bases and batted their pitchers at pleasure, and, in fact, seemed to have the game in their own hands. Such a complete grasp on everything could have but one result. The weather was fine, and the Pittsburghs appeared to be full of ginger.

The Brooklyns went to the bat first, and Daly got a two-bagger. Lachance followed with a single. It then appeared like another walk-over. Burns sacrificed, and Anderson got to first on a "fielder's choice," haly being put out at the home plate. The side retired without scoring, however, after some pretty playing by the Pittsburghs.

Pittsburgh scored one run in the second,
three in the fifth by good batting, and one in
the sixth, owing to a muffed fly by Anderson.

The Brooklyns did not score for four innings.
In the fifth, however, Burns knocked a home
run, scoring two runs, and two others were
cored. The boys were finding Killen in great
shape, and after the fifth he was taken out.
Young Jordan took his place. Nothing particularly brilliant was done with Jordan except
to hit him often and make bases on the errors of
the infield. In the ninth himing five runs were
made by Brooklyn, owing to errors between

BILLIARDS WORTH SEEING.

PLENTY OF FUN AND EXCITEMENT IN THE RIG INTER-CLUB TOURNEY.

ville at 6:30 o'clock last night. He brought along a number of stuffed alligators as souvenire Fred Oakes Wins Another Victory, Beating Keeney, the Brooklyn Crack - Dr. Ranney Plays a Ratting Come Against Town send, the Scratch Star-A Hurrah Contest Between Dr. Jennings and Barnard.

> The game that Fred Oakes of the Liederkranz Club played yesterday afternoon with Frank Keeney of the Germania and Oxford Clubs of Brooklyn in the big inter-club ameteur billiard tourney at Maurice Daly's Brooklyn assembly rooms, was, in its close and exciting finish, an excellent sequel to the splendid game that J. Byron Stark, the new Manhattan Athletic Club crack, put on record against Dr. Jennings, the Brooklyn etar of the Crescent Club. has been picked for the winner of the tourney, and he justified the hopes of his most sanguine friends by displaying the beauty of his stroke and his ability to execute very clever carroms quickly and with consummate art. His run of 38 in the twenty-third inn ing pinces a star to his credit as the best run thus far of the tourney. Wagers have been made that the highest run will not double it in buttons. Stark's double figure runs were 10, 24, 27, 14, 38, 16, 13, 23, 28, and 12, and his total 300. His average, the best of the tourney up to the time, was 5 10-58. Dr. Jennings's double figure efforts were 29, 14, 10, 22, 12, and 11, and some of them were beauties made with his familiar left-handed " nurse stroke."

Keeney started things off with a gallop when he tackled Onkes yesterday afternoon. Oakes had previously won a plume in the eyes of his admirers by picking a game right out of the fire by just 3 points against Dr. Ranney, the Union League New Yorker, on Tuesday afternoon. To the surprise of Keeney he just about duplicated the performance by catching his rival when Keeney was nearly 50 points in the lead and closing a winner by 4 points. It was a corking good game, and Keeney admitted it, too. Keeney was handleapped to play 265 to Oakes's 250, and he kept away ahead until the thirty-eighth inning. Then the scores stood 181 to 158 in his favor. At this juncture he sprang on his adversary another of the double-figure runs that vanquished Dr. Ranney unexpectedly. It was a neat break of 25, ney unexpectedly. It was a neat break of 25, and it brought him within just one point of Keeney's score of 184. Keeney made 5, and Oakes exactly doubled the run with a break of ten, and took the lead, with 1931 points to Keeney's 189. Keeney chased after him in redhot pursuit, and caught and passed him again in the lifty-first liming, with a total of 241 to 236, and then Oakes planked in a round dozen of billiards, and regained the advantage. The Germania favorite knocked this out later with a baker's dozen of 13, but with two singles Oakes finished a game that was growing intensely interesting. The score:

Arthur Townsend of the Lyceum Club, the 350-point scratch man of the tourney, got out of a sick bed to go over to Brooklyn in the evening to play Dr. Ranney, the Union League Club expert. Townsend caught cold on Monday, and it laid him up, so he said. He played a triffe better billiards than he did on Monday, but they weren't anywhere near up to his usually fine standard. Dr. Ranney, who is handicapped at 250 points, plays what the critics cail a thoughtful game, opened with a duck egg, and atoned for it with a run of eighteen, and got the lead. He held it for a a string of innings. Then with a near bunch of just a round dozen Townsend passed him with a total of 52 to 51.

Just at this juncture Dr. Renney caught a favorable position and held the globes with great expertness, and the billiard lovers watched cageriy as he got closer and closer to Stark's high run. He stopped short at thirty seven, just one short of the favorite's best break. It was very pretty billiards indeed, and was heartily applauded. The Doctor was just one short of 100, too, and he made it in his next inning. He played with marked steadiness and widened the gap in the scores after that. Townsend, who could do little or nothing with a bunch of 12, and the scores went up on the string: Townsend, the Ranney meantime catertained the billiard lovers with some exquisite position play, and made them really enthusiastic by a daring massé or two. He swept around his second string with a clever break of 17, piled on top of a prettier one of 20, and set down with a total to his credit of 204 to Townsend's 125. It was at this point that Townsend played billiards for the first time in the game. of 20, and set down with a total to his credit of 204 to Townsends 125. It was at this point that Townsend placed billiards for the first time in the game. He rolled up 21, when hard luck cut the display short, the expert nursing by a hard and admirably conceived long single cushion shot. To this he acided 18 and then 16. But good as these billiards were, they had the But good as these bilinaris were, they had the fault of being carned too late. Dr. Ranney went out on a jump in the fifty-first inning, just missing an average of 5, besting Townsend 60 points on an even game, but this result was due very largely to Townsend's very evident indisposition. The score:

High Runs - Hanney, 37; Townsen, 27;
Referee-Mr. Gallagher. Mark r. Mr. Floyd.

The closing game of the night was again the star attraction. It was a battle between Dr. Jennings, the virtual author of the tourner, and his old rivat, Billy Barnard. The latter played 255 to the "Docs" 250, and, as usual when Jennings has anything to do with it, there was more good solid fun to the square inch than usually falls to the let of billiard lovers to enjoy outside of Brooklyn. Both men opened the battle in fine shape. The referce, Tom Gallagher, ran away from Jennings at the start, which was a funny thing to begin with. Then the Doctor made a famous scratch, and discussed the merits of the shot with the spectators, and Champion Orytile Oddie, Jr., who didn't see the shot at all, offered to bet that the game would wind up in a three-round bout without gloves at the Crescent Club. But for once Oddie was wrong. As far as the tourney has progressed it seems to be the proper caper for rellows who like fun and spunk to see the afternoon games and the finishing games of the night.

night.

Barnard won the game finally by a score of 265 to 194. He made a high run of 29 and his rival scored a break of 24. Barnard's average was 4 1-13 and Jennings's was 2 1-32. Both of them went out and had a smoke afterward and shook hands for about five minutes.

The afterwoon Stark will meet bakes, and the evening rames will be latteen by, Jennings evening games will be between Dr. Jenn and Ranney and Drs. Miller and Townsend.

THE GREAT TRIAL STAKES.

A List of the Withdrawals from the Coney Island Club's Big Event.

Withdrawa's from the Great Trial Stakes, for we-year-olds, to be run at the Coney Island Jockey Club's June meeting, at Sheepshead Bay, have been quite numerous. The nominations to this rich and much-coveted event, however, have been so large and varied that it can well afford to part with some of its candidates and still contain material ample for the making of a great race. In 1851 Gideon & Daly's great colt His High-

ness won it, with John Hunter's Dagonet second, and Billy Lakeland's big disappointment Victory, third. In 1802 James R. Keene's colt by Mr. Pickwick-Alice Bruce fought his way to victory and landed a snug prize, the stake being worth \$23,600 that year. August Belmont's Lady Violet ran second, and Dr. Gideon Lee Knapp's Sir Walter was third.

Mr. Keene again captured the prize in the fol-lowing year with Domino, who is just how re-ported to be sounder and better than lowing year with Domino, who is just how reported to be sounder and better than at any previous stage of his career. "METS" WIN THE CHESS MATCH

The Manhattane Are Beaten by 41.8 to 3 1.2 Points. The game left unfinished in the chess match played last Saturday between the Metropolitan and Manhattan chess clubs on board No. 7 was resumed at the Metropolitan Chess Club last

night. Black (Meyer), Metropolitan C. C., had left his thirty-ninth move sealed on Saturday. After fifteen additional moves Buz (white Manhattan C. C., bad to resign the game, thus losing the match for the Manhattans by 412 to 31's games. The case is all the more aggravating to the Manhattan C. C., as Buz might have accepted a draw, which wasoffered to him after forty-five moves had been recorded. The score of the game follows:

SEVENTH TABLE -- QUEEN'S GAMBIT. K - K12

The final games of the Metropolitan League series will be played at the Union Square Hotel between the City and Brooklyn chess clubs.

RACING YACHTSMEN MEET.

The Labor Day Regatta to Be Abandoned If the Clubs Do Not Support It. The Executive Committee of the New York Yacht Racing Association held a meeting at O'Neitl's last evening. A resolution was adopted requesting that each club in the association agree to subscribe for fifty tickets for the asso ciation's Labor Day regatta on or before June 1. and, in the event of their not subscribing, th committee advised abandoning the regatta alto-

It was also resolved that a meeting of the delegates of the association be held on April 19 to see what action their clubs would take on the foregoing resolution.

A change in the sailing rules was also recommended so that Article II. of the sailing rules should be amended so as to read:

The neasurement for allowance for time shall be the length of the load water-line measurement when in sailing trim, to which shall be added one-third of the overhang forward and aft, which shall be the sailing length. gether.

The present rule reads: The measurement for allowance of time shall be the length on deck, measured from the forward part of the stem to the extreme stem over all; to this is to be added the length of the load water line, measured which in salling trim, the two measurements to be added together and divided by two. The result thus obtained shall be the salling length.

obtained shall be the safting length.

After the regular business had been disposed of Commodore A. J. Prime of the Yonkers Corinthian Yacht Club, the President of the association, arose and, in a few well-chosen remarks, presented a silver loving cup to John O'Neill in behalf of the members of the association. In the course of his remarks Commodore Prime said that, while he might be the father of the Yacht Racing Association, that Mr. O'Neill was its godfather. The cup was inscribed: Presented to John O'Nelli by the New York Yacht aging Association, in appreciation of his aid and in-cress in the automate.

A REMARKABLE BOAT. What the English Papers Have to Say About the Allsa.

London, March 20. The Times's yachting reporter says the defeat of the Ailsa on the 17th inst. was after a poor trial in a fluky breeze, The vessel's reputation has not suffered in the least through her being beaten. She went to windward in her own matchless way, but on both the first and second rounds the firstannia had a better breeze. When salling free, each time the Allsa wrested the lead from her competitor.

ther. Landon, March 20.—The Facht World says o-day in a leader on the Mediterranean reto-day in a leader on the Mediterranean regattas;

"The consensus of opinion is that Ailsa is phenomenally fast. She goes to the windward in pecriess fashion. She is not yet in perfect trim, but there will be plenty of time to prepare her before she journeys across the Atlantic, as everybody now expects she will be called upon to do. She shows extraordinary quickness of the helm and promises to develop astonishing speed. She certainly is an excellent trial horse. Should Valkyrie III, heat her the prospects of our winning the cup would be rosy."

Nat Herreshoff Much Better.

According to a private letter received in this city yesterday Nat Herreshoff, the famous Briscity yesterday Nat Herreshoff, the lamous Bris-tol designer, is slowly but surely recovering from his illness, and on Manday, which, by the way, was his forty-seventh birthday, was down stairs for the first time in three weeks. He has improved rapidly of late, and, it is said, felt well enough to receive some of the workmen and draughtsmen in his private designing room.

An Effort to Have the Three-cornered College Bace Bowed at Nyack.

NYACK, N. V., March 25. An effort, with some prospect of success, is being made by the Nyack Rowing Association to have the intercollegiate eight-oared rowing race between the
crews of Commina College, Cornell University,
and the University of Pennsylvania take place
on the University of Pennsylvania take place
on the Hudson River at this point. A committee from the three colleges named have been
appended to select a rowing course, and a committee from the Myack Rowing Association conferred yesterday with Mr. Richards of the Columbia College committee. That gentleman
considered the proposition very favorably, and
will report the matter to the others interested.
There are four courses to select from, the Hudson River, the Thames River, the Delaware
River, and Cayuga Lake, The Inaca papers
favor Cayuga Lake, but in New York and vicourse on the Tappan Zee from Nyack to Piermont is four miles long, and the races are four
miles straightaway. It is claimed that with its
nearness to New York and the Columbia people
it would be an easy matter for that crew to come
up here and train and make ready for the races. Nyack Howing Association to have the inter-
